CSUF Graduate Program in Applied Mathematics (GPAM) Research Fellowship

The GPAM Research Fellowship provides students an opportunity to work with a faculty mentor or industrial sponsor on a research project. The fellowship comes with a stipend of $5,000 for the first semester, renewable for a second semester by the advisor's recommendation and GPA requirement. Recipient is expected to work 20 hours per week. The project does not replace any coursework required for the degree. In the event the fellowship recipient is also granted a teaching assignment, the teaching load should not exceed one course. Any work other than the fellowship cannot exceed 20 hours a week. This fellowship is for the academic year 2016-2017. Future fellowships depend on industrial sponsors.

To apply for the fellowship, you must:

• Be admitted into the CSU Fullerton master’s program in applied mathematics without conditions;

• Have a minimum of 3.5 overall GPA;

• Provide a letter of recommendation from an advisor or professor emphasizing research potential (past research or industrial experience is preferred, but not required);

• Provide a letter from a GPAM faculty at CSUF agreeing to be your research mentor;

To maintain the fellowship for the second semester, you must:

• Maintain a 3.5 GPA or higher in the program;

• Be recommended by your research mentor;

The application materials should be submitted to Dr. Maijian Qian (mqian@fullerton.edu) by May 01, 2016.
